This document contains the records of all Hibiscus rosa-sinensis that have met the naming requirements as outlined in the regulations of the ICNCP as established by the International Society for Horticultural Science (ISHS). Contained herein are all the cultivars that have received name approvals by the International Cultivar Registration Authority Registrar (ICRAR) for August 2017.

A Quick Guide to Naming a New Cultivar

Adapted from:

International Code of Nomenclature for Cultivated Plants

A publication of the International Society for Horticultural Science

An ideal name is both easy to spell and pronounce in the various countries in which the cultivar might be distributed. The rules for creating a new name allow you to use or make up any word or words you want but the name will not be allowed if it is likely to cause confusion with an existing name. The following check list is a guideline in choosing a name for your cultivar.

1. Make sure your suggested name is unique – check the existing database to ensure uniqueness (see step by step illustrated instructions at the end of this guide to ensure that the name is unique)

2. Make sure that your name cannot be confused either in spelling or pronunciation with an existing cultivar

3. Make sure that your name does not convey the merits of the cultivar (i.e. do NOT use superlatives such as ‘Best Ever’, ‘The Greatest’ and ‘Tastiest of All’)

4. Each word of a cultivar name must start with an initial capital letter unless linguistic custom demands otherwise. Exceptions are words after a hyphen unless they are proper nouns. (ex. Commander-in-Chief)

5. Make sure that your name has no more than 30 characters, excluding spaces

6. A cultivar name should be as short as practical and should not consist of nor contain overly long words that may be difficult to write or pronounce. (ex. “Diplomgartenbauinspektor” may be considered difficult to write or pronounce)

7. A cultivar name that contains the name of a living person should not be used unless that person has given permission for their name to be used.

8. Avoid the use of Latin Words

9. Do not use any of these banned words in any language in your name: “hybrid”, “cultivar”, “grex”, “group”, “form”, “maintenance”, “mixture”, “selection”, “sport”, “series”, “variety” (or the plural form of these words in any language) or the words “improved” and “transformed”

10. Do not use fractions or symbols

11. Do not use any punctuation marks except for the apostrophe (‘), the comma (,), the hyphen (-), and the full stop or period (.) ; a maximum of two exclamation marks (!) may be included but they may not be side-by-side

12. Do not use single letters or single numbers, or combinations of a single letter or number with a punctuation mark
The image contains information about a Hibiscus cultivar named 'ALKIRA Allan's Memory'. Here is the structured data:

**Date Registered:** 08/19/2017

Bloom Type: Single Regular

Grower: Lynam Richard and Brenda

Photo Credit: Brenda Lynam Copyright 2017

Propagation: Ability to Root: Good (60-90% takes), Performance: Own Root but Graft Recommended

Bloom Colors: Color of veining: Pink, Color of Spots and Splashes: None, Eye Zone Color: Pink, Number of Colors: three, Number of Rings of Color: None, Color of Stamen Pads: Orange

Bloom Characteristics: Form of Bloom: Flat, Bloom Features: Plain, Petal Overlap: more than 1/2, Veining: moderate, Substance: average, Duration: 1 day, Presentation: Upward, Eye Zone Size: medium (Although in the Yellow category, the bloom has definite Apricot overtones)

Leaf Characteristics: Leaf Size: Small - less than 2 inches or 5cm long, Leaf Appearance: Semi Glossy

Bush Characteristics: Bush Development: Slow Growing, Bush Size: Low Growing 3ft 90cm or less, Bush Width: 1/2 as wide as high, Bush Form: Open

Size: Mini

Size Range: Miniature = < 5 Inches 125 mm

Color Group: Yellow
Date Registered: 08/01/2017
